You are always welcome to view the recommendations for my services posted on "Linked in" by clicking [here](#)
□ .

George Ann Brannon writes to her friends:

My computer guy (Tom Sparks) just came to my house to take care of some computer issues for me. □ I am telling you, after he leaves I feel like a whole mountain has been lifted off my shoulders and I am a very happy computer user! □ I bought a new laptop with Windows 8. □ It was a confusing nightmare. □ He tweaked it and made it look like my Windows 7, but I still have access to the "new look" if I want to use it . He gave me a quick run through on this system, so now I understand it better. □ Anyway, he cleaned everything up, as I had really messed things up trying to learn how to use it. □ He installed an antivirus (free) and added some other free software to make my computer life easier. He also serviced my desktop computer. □ The man is a genius (in my books), plus he is just really nice, does the work from my house, and VERY reasonable and fast...even while multi-tasking! □ I can actually afford to have him come a couple of times a year if needed. □ And, he is so patient and will explain things and answer any questions you have. □ If you are not a computer geek, or don't have a computer tech, I highly recommend the one I use. □ Everyone I have put him in touch with and has used his services, is really pleased. □ I would say to give him a try once and please tell him I made the recommendation.

Zach Carroll Comments:

I found Tom via his ad on Craigslist, and have been so happy with the work he did for us! He was prompt, courteous, highly skilled, and able to explain things in a way that was very easy to

understand.

He is that rare blend of proficiency and value - so refreshing to find these days! I would highly recommend Tom to anyone!

Zachary Carroll, Portland, OR

Jenni Writes:

Tom has been over to my house at least 5 times fixing various problems I have encountered with my computer. He has ALWAYS been able to fix whatever has been wrong promptly and efficiently.

I know Tom is a very trustworthy and competent person. I wouldn't have anyone else work on my computer. Be assured that you will feel safe and definitely get your money's worth having Tom work for you.

Sincerely, Jenni

Roy Writes:

Just a quick note to express my appreciation for making Patty's Laptop a machine to marvel at. Patty is so happy! Much like a kid with a new toy. LOL

I've yet to make a decision regarding my System, but be assured that if I decide to keep this System I'll be calling you to 'Make Things Right'.

□

Again....Thanks, Roy

Pat was kind enough to offer:

I most certainly can vouch for Tom and EagleTech Computer Service. He did such a good job, was on time, called me to keep me informed he will be here, and was very professional. So much so I have used him twice already and plan on using his services again when I need them. You can't go wrong.

Pamellia comments regarding the repair on her daughter's computer:

Thank you so much for fixing her computer. Once again you are the best. Please don't hesitate to use me as a reference.
